

Bivouak technical features

Front venting

Natural front air flow thanks to the lens shape or mounting structure

Grip tech

Inserts at stem ends for comfort and hold, does not stick to hair

360° Adjustable temples

Stem ends bend in every direction, easy to wear and good hold when worn with helmet, beanie or simply alone

Magnetic Wings

Coverage, integration and optimum ease of use: with magnetic properties, added protection is instant.

Total Coverage

Maximum protection in extreme conditions against harsh sunlight

Lenses

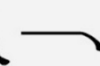

SPECTRON 4

Light but with excellent shock resistance, this versatile lens is suitable for all types of sports activities.

Anti-reflective coating: improves visual comfort by eliminating stray reflections.

Flash finish: improves visible light filtering with mirror effect lenses. It reflects the rays of light and increases the filter effect. It eliminates the radiation reflected by the outer mirrored surface of the lens.
