

# RUN

ABSOLUTE FREERIDE

reference : 370321

The trail holds no mysteries when faced with the Run. The Run boasts wide, anti-fog lenses, a curved frame, and shock resistant nose and temple pieces. Your vision leads the way to freeride!

## Technical features

### RX

The frame can be equipped with corrective solar lenses.

### Sipe Grip Tech

Supple, sculpted inserts at the stem ends for excellent hold without sticking to hair

### Curved, wrapping temples

temples shaped and cut for better hold with sharp and repeated movements

### Wrap Around Coverage

Curved frame with wide temples to protect against harsh sunlight

### Supple shock-absorbent insert

Supple shock-absorbent insert, will remain in position on the nose

## Lenses

### SPECTRON 3

Light but with excellent shock resistance, this versatile lens is suitable for all types of sports activities.

### POLARIZED

Polarizing technology : When light rays hit a flat surface (car windscreen, water, snow etc, asphalt etc.) they spread out in all directions.

### SPECTRON 4

Light but with excellent shock resistance, this versatile lens is suitable for all types of sports activities.

Anti-reflective coating: improves visual comfort by eliminating stray reflections.

Flash finish: improves visible light filtering with mirror effect lenses. It reflects the rays of light and increases the filter effect. It eliminates the radiation reflected by the outer mirrored surface of the lens.

### ZEBRA

This light-sensitive lens, developed for the Speed range, is ideal for mountain biking, trail running and climbing.

Light-sensitive: the lens turns darker or lighter depending on the intensity of the light.  
Amplitude cat. 2 to 4.

High speed reaction: 22 to 28 seconds.

Exceptional anti-mist treatment: no condensation, maximum lifetime.
