

WHOOOPS

FREERIDE STYLE FOR SMALLER FACES

reference : 400111

Designed to fit smaller face shapes, with curved stems and full coverage, the Whoops can take on all terrain. With your choice of lenses, more classic colors or freeride graphic designs, you define your style.

Technical features

Curved, wrapping temples

temples shaped and cut for better hold with sharp and repeated movements

Wrap Around Coverage

Curved frame with wide temples to protect against harsh sunlight

ideal for small face

Lenses

SPECTRON 3

Light but with excellent shock resistance, this versatile lens is suitable for all types of sports activities.

POLARIZED

Polarizing technology : When light rays hit a flat surface (car windscreen, water, snow etc, asphalt etc.) they spread out in all directions.

SPECTRON 4

Light but with excellent shock resistance, this versatile lens is suitable for all types of sports activities. Anti-reflective coating: improves visual comfort by eliminating stray reflections.

Flash finish: improves visible light filtering with mirror effect lenses. It reflects the rays of light and increases the filter effect. It eliminates the radiation reflected by the outer mirrored surface of the lens.

ZEBRA

This light-sensitive lens, developed for the Speed range, is ideal for mountain biking, trail running and climbing.

Light-sensitive: the lens turns darker or lighter depending on the intensity of the light.

Amplitude cat. 2 to 4.

High speed reaction: 22 to 28 seconds.

Exceptional anti-mist treatment: no condensation, maximum lifetime.
